Mauritz - Baldwin Corporation To Open Friday March 1 Date Set For Opening New Firm

Climaxing New Year developments along Cameron's mercantile row is the formal opening of the Mauritz-Baldwin Corporation with their International Harvester Company dealership in farm implements and farm hardware, on Friday March 1.

The firm now operating a number of such agencies in the heart of Texas' farming belt brings to Cameron a larger mercantile advantage for the farmers of this trade territory and gives the city a strong enterprise.

Date for the formal opening has been set for Friday March 1. The corporation is located in the building formerly occupied by the Cameron Furniture Company adjoining the Herald building. For several weeks implements and farm hardware have been received, assembled and placed for the formal opening. The large floor space of the building presents a colorful showing of bright new machinery, some of which has not been seen in this section heretofore.

Folks are funny that way. They worried deeply over what the Supreme Court would decide in the gold case. Nobody has any gold. Nobody has ever had much gold. It is not even the money of the country. Still millions spent miserable days trying to figure out what was in the minds of the solemn judges who handed down the decision Monday.

J. T. Baldwin, manager and part owner of the store, will be in charge of the business here. He has arranged a program of entertainment for Friday and Friday evening that includes refreshments and food served to all who visit the show rooms. Souvenirs will be given. By special arrangement farmers and other visitors are invited to the formal opening. (See FORMAL OPENING, page 12)

Brooker Writes Note On Leaving Jail Here

Sheriff of Milam Co.
Dear Mr. Mack:

Please don't think hard of me for beating your jail. You are o. k. You treated me all right, and I sincerely thank you for the kindness you have shown Jack and I.

When a bunch of Hoosiers stagger up on the witness stand and swear a lot of lies on you then it is time to break jail. Don't you think so?

These Milam county Hoosiers are really trying to fix us up.

We are not guilty of any of these charges against us.

When you read this I will probably be out of the state. If I am not it surely will not be my fault.

Please don't blame anyone for this jail break but me, for I did it myself on my toughness.

Good bye and good luck.

Al Brooker.

Says He Beat Aged Man To Rob; Gause Youth Now at Large

Maurice Bowling of Gause has made a confession in which he says he beat Burt Williams, aged farmer, while he drove his wagon along the highway, in an effort to rob him. District Attorney Camp has the confession.

Bowling, now at large after escape from the jail here on Tuesday night, it is alleged, said that he saw Williams make a purchase at Gause and observed that he had a roll of money. Thereafter he stalked the aged man and when he had gotten sufficient distance from town, attacked him as he mounted the wagon. Williams was hit eight times with a club. An approaching automobile frightened Bowling who fled. He got no money.

The confession, it is said, details the crime, committed alone, and goes to some length in discussing his reaction to blood-shed, indicating he may hold some finendish indifference to suffering.

Bowling is also charged with arson in connection with the burning of the Gause school building.

Former Teacher Here Is Dead

Professor O'Shea died suddenly at his home in San Antonio Sunday. Word reached friends here Monday.

Mr. O'Shea was Latin instructor in Cameron schools at one time. He was employed at Taylor and for some years had been teaching in Lady of the Lake School in San Antonio.

J. T. BALDWIN WILL MANAGE CORPORATION

Mauritz-Baldwin Corporation of Cameron is managed by J. T. Baldwin, who was formerly of Huntsville. Mr. Baldwin spent the last ten years in the service of the International Harvester Company, the last five years of which were spent in the capacity of assistant manager of the Houston Branch.

Mr. Baldwin not only brings to Cameron a wealth of knowledge in the implement business, but he has been associated with some of the most successful implement and hardware dealers in South Texas. He (See BALDWIN on page 12)

SUES POWER COMPANY FOR \$76,100 DAMAGES

Suit against the Texas Power & Light Company by J. H. Angell, father of J. H. Angell, Jr., injured last fall by an electric wire, for \$76,100.00 has been filed in District Court.

Jesse Angell, it is alleged in the petition, suffered permanent injuries from the burns. The accident occurred on November 3, 1934. Jesse was playing near a high line in the southwestern part of the city. The wire lay on the ground and Jesse stumbled over the line and lay for some time. He was resuscitated by Earl Moseley by artificial respiration methods.

TWO YOUTHS IN DARING JAIL BREAK WEDNESDAY

John Ward and Maurice Bowling in a daring jail break around 3 a. m. Wednesday escaped from the milam county jail, seized an automobile belonging to Joe Luce and disappeared.

It was the second jail break within the week. The men escaped through a hole in the roof made by Al Brooker and a negro who gained their freedom on Saturday night. One of the men was in the run around with a trusty. After they broke from their cells they gained the roof and let themselves down by means of blankets made into a cable.

After their escape it became known they had been arrested by Max Kennedy and deputies five days ago and were being held on charges of arson in connection with the burning of the Gause school building last year and Bowling with beating and robbing Burt Williams who was attacked as he drove along the highway with a load of corn.

Unlike Brooker, the men left no note of thanks or "good bye" to Sheriff Kennedy so far no trace has been found of the pair. Sheriff Kennedy was following up every clue while Clarence McCall, deputy Sheriff, was arranging to have shackles made to hold the prisoners he believes might attempt to flee the jail. The jail, he said, is not modern and escape from it is practically a cinch for men who know what to do.

Brooker Flees Jail Is Retaken Sunday

Albert Brooker who says he broke jail here Saturday on his "toughness" was able to overcome the frailties of an antiquated cell block in the county jail but could not escape the business end of revolvers in the hands of Marlin officers late Sunday afternoon and was captured and returned to custody here.

When surprised by officers near Marlin who thought he was Raymond Hamilton he abandoned his automobile and attempted to escape. At the first volley he fell to the ground and lay still. Officers believed they had killed him but found his action to be a clever ruse to escape the bullets.

Robert Franklin, negro, who escaped with Brooker, escaped in a brilliant piece of footwork. He was soon out of range and thus far no trace of him has been found. He is charged with felony theft.

Brooker has twice escaped jail in Cameron. Once several years ago. The hole in the roof, according to Sheriff Kennedy had not been repaired, and was made by Brooker some time ago.

Alex Walker charged along with Brooker in a series of robberies in Milam county, refused to follow the lead of his more daring companion

and remained in jail. Brooker and the negro prized their way from the cell by use of crow bars said in all probability to have been smuggled to Franklin. After he had liberated himself he opened Brooker's cell and they went to the roof and escaped by means of a cable made of blankets.

A Ford V-8 automobile belonging to James L. Coleman of the Coleman Furniture Company, was stolen. The car was recovered when the fugitives abandoned it near a farm home in Falls County. The men were seen in Waco Sunday morning. Sheriff Kennedy left at once for Waco. They had taken the license plates off the sedan and replaced them with Falls county license numbers.

A jury in court here last week refused to convict Brooker of burglary charged in connection with theft of blankets and other goods from the garage of District Clerk Penn Wolf.

DEGREE CEREMONIAL BY KNIGHTS COLUMBUS

The degree ceremonial of Knights of Columbus was given to a large class on Sunday February 17 by the local council.

The local team under the direction of Grand Knight J. C. Andres was assisted by the Degree Team of the Austin Council under the direction of District Deputy Elmore Borchers of St. Edwards University. The ceremonies began with the celebration of High Mass, by Geo. Apel, pastor of St. Monica's Church. The members and candidates received Holy Communion in a body. Delegations were (See K. A. J. MATOCHA & CO CATER TO FARMERS

A. J. Matocha & Co., hardware-implement dealers in Cameron, are anticipating a large volume of farm business this spring and in looking forward have laid in large stocks of new Massey-Harris implements, advertised this week in the Herald.

Of especial interest is the planter advertised. It is a special patent with lever control for depth planting. A big stock of one and two row planters and cultivators are ready for the farmers. These implements are on display and represent a standard line of nationally known goods sold and (See MATOCHA & CO. on page 12)

TINY BODY MAY BE 1 OF MANY LAID IN WASTE GRAVES

The body of a 7 months-old white baby boy was found late Wednesday afternoon partially buried in the wastes of the city dump grounds.

The find was reported to Sheriff Max Kennedy by Mr. Rainey operator of a filling station on the Buckholts road who said he had obtained the information from drivers of the city dump trucks.

Investigation thus far has failed to prove the charge that other tiny bodies of prematurely born babies lie buried in the offal of Cameron's cesspool. Officers are working feverishly to develop clues that might lead to identification.

The tiny body was covered with a copy of the Cameron Enterprise on which was stamped the name of a subscriber. A small depression in the earth had served for a grave and there lay the body, half covered. The child seemed perfectly formed and Justice Womack Brashear said it appeared to be about 7 months of age and no doubt a white child. Sheriff Kennedy spaded out a grave and buried the child near the spot where the body was found.

The date of the newspaper in which the body was wrapped was February 7, 1935 and officers believe it has an important bearing on the approximate time the baby was cast into the shallow grave.

Rumors that other infants prematurely born to secret mothers lie buried in the dump site have come to officers for some time. The finding of the body of the white baby Wednesday is said to have caused officers to give credence to these rumors and truck drivers will be questioned in an effort to develop information.

It is said that an effort may be made to ascertain whether other bodies are buried in what now appears to be Cameron's baby farm, by digging in the wastes of the dump site.

With Sheriff Kennedy at the time of the discovery were Justice Brashear, Mr. Rainey, Constable B. F. Bailey and Criminal District Attorney Emory B. Camp.

At 1 p. m. to-day Justice of Peace Womack Brashear said officers were looking for a Mexican who is reported to have found the body and buried it. Information says that he discovered the body at the dump site, found the paper and buried the body where reported by Mr. Rainey. It had been discovered later by trash haulers for the city.

'LITTLE MINISTER' IS WEEK'S FILM FEATURE

Ever since Maude Adams humanized the lovable character of Babbie in Sir James Barrie's never-to-be-forgotten story and play, "The Little Minister," this quaint document has endeared itself to theatre-goers everywhere.

The picture will be shown at the Cameron Theatre on Sunday and Monday February 24 and 25.

And now Katharine Hepburn has made a splendid interpretation of the story as her new starring vehicle for RKO-Radio.

Hollywood's lavish resources have been drawn upon to the limit in regard to production, cast, detail, intimate touches, backgrounds, color, romance and interpretations.

There is the appealing romance of the little pastor, Gavin Dishart, for Babbie—a romance that tugs at the heart and engenders a fine sentiment enchanting to the beholder.

Babbie returns this love with all the nature of her sex—and to this love Hepburn is said to give a depth (See LITTLE MINISTER, page 12)

Buys Max Collins Tailor Shop Here

H. W. Winstead of Houston, has purchased the tailoring business of Max Collins estate in Cameron, and has taken charge this week, making extensive improvements in the business.

The cleaning and pressing plant and business generally will continue to be known as the Max Collins Tailor Shop.

Mr. Winstead has had much experience in large plants in Houston and elsewhere in Texas. He will soon receive a high grade line of men's wear and will continue to sell Globe clothing. All present employees remain with the plant.

Mr. Winstead has been given a fine welcome by the people here and he is well pleased with the outlook for his business.

AUGUST HORSTMANN FOR ALDERMAN HERE

For many years a resident and business man of Cameron, August Horstmann is a candidate for Alderman in the City government subject to the general election to be held on the second Tuesday in April this year.

The announcement that he would be a candidate for this place was made Monday. Mr. Horstmann has been urged by many friends and business men to offer for a place on the Council. In announcing his candidacy he thanks those who have tendered their support and asks his friends to lend their help for his election.

Mr. Horstmann is a native of Milam county. For a number of years he has been a successful business (See HORSTMANN on page 12)

Egg Shaped Like Peanut Is Shown Here Saturday

A freak egg was exhibited in Cameron Saturday by Walter Stork brought from his farm on route 2 out of Buckholts.

The egg was shaped like a peanut and apparently an otherwise normal lay. It measures 2 inches in length and two and a half inches in circumference, has a brown shell and was the first production from a young Cornish hen. She promises to do better as subsequent eggs from this hen have been normal.

C. H. Pollard Gets San Antonio Job

C. H. Pollard, former reporter for District Court here, has been appointed to a similar position with the federal court of Judge Robert McMillian in San Antonio.

Mr. Pollard will alternate his time between San Antonio and Del Rio and the position will be a life time job at a good salary. Friends here are glad to know of his good fortune.

Not the Same

Tired PWA Worker—Say, boss, is you got a man on your list by the name of Simpson?

Boss—Yeah; what of it?

Worker—Well, Ise dat man, boss—I jes' thought you all might have it down as Sampson.

Slight Error

Farmer (to new hired hand)—Where's that mule I told you to take out and have shod?

New Hand—Did you say "shod?" I thought you said "shot." I've just been buryin' her.

Clever

Friend Wife—To think I turned down Guy Gimpus for you. Why, he was a clever, sensible fellow.

Hubby Dear—And he was the one who introduced us, wasn't he? I'll say he was clever!

What?

The nurse came into the library to proclaim the good news. "It's a little boy," she announced.

"What?" asked the absent minded professor. "Oh, yes, just ask him what he wants."

Couldn't Blame Him

First Kid—"Gee, Jimmy, when I went by your house this morning I heard somebody swearing something awful!"

Second Kid—"Aw, that was my dad. He was late for church and couldn't find his hymn book."

Easy

Visitor to Asylum—How do your patients manage to keep busy?

Keeper—They are all writing scenarios for the movies.

No?

Mrs. Gassaway—I understand your husband can't meet his creditors. Is that so?

Mrs. Spendall—I don't believe he wants to, especially.

Frightful

Blowhard—There we were in the thick of the jungle—the tiger and myself, face to face!

Girl Listener—How frightful it must have been for both of you!

Sorry

Binks—Where did you go last week in your new car?

Jinks (gloomily)—To jail.

Poor Fellow

Gink—Harry Davis never completed his education, did he?

Pegrew—No, he lived and died a bachelor.

Certainly

Mrs. Rowdybush—Have you any faith in life insurance?

Mrs. Sewzuk—Oh, yes. I've collected \$10,000 for two husbands, and they weren't much good either.

Maybe

Client—Why, it costs a lot more to get divorced than to get married, doesn't it?

Lawyer—Yes, but its worth a lot more, isn't it?

Precaution

Touch—Lend me a five spot for a week, old man?

Go—Maybe, but first you'll have to tell me who the week old man is.

Sure Thing

"Why in the world did you ever write a policy on a man 98 years old?" asked the indignant insurance inspector.

"Well," explained the new agent, "I looked up the census report and found where there were only a few people of that age who die each year."

One

He—Was there ever a woman who did not grab her skirts and jump when she saw a mouse?

She—Certainly—Eve.

Will Say

Tramp—Lady, could you spare a bite to eat? I ain't et for two days.

Sympathetic Lady—You poor man! Just wait until I call my husband.

Tramp—Don't do that. I'm a vegetarian.

Improved

Old Lady—So you served as a missionary among the cannibals of the Andaman islands, did you? And did you convert them from their savage ways?

Missionary—Yes, I taught them to eat with a knife and fork instead of with their fingers.

Pointed

Mrs. Wiggins—What did the minister say this morning?

Mrs. Wiggins—His sermon was about the Garden of Eden. I don't think he was very nice about it. He reminded his congregation that Eve did not realize that she lacked clothing until she ate the apple—then he looked right at some of us leading women and said, very emphatically: "Sometimes I wish some of the women of this church would eat an apple."

SPONSOR HICKS GIVES PROGRAM AND RULES

Cameron's third annual Invitation Track Meet will be held at the Yoemen Stadium on March 9th. Invitations have been sent out by Chas. M. Hicks, faculty sponsor for the meet.

The preliminaries will begin promptly at 1 p. m. on the date set and the finals will begin promptly at 7:30 p. m. in the lighted field. Mr. Hicks lists the events and all information in the following:

Awards:

1. Gold medals for first place winners, silver medals for second place winners, bronze medals for third place winners and ribbons for fourth place winners, except in relays, will be given.

2. A felt banner will be given to the winning team in each of the three relays.

3. Ribbons to each man on the first, second, third and fourth place relay teams.

4. Track trophy to the team scoring the highest number of points and another trophy for the second place teams.

5. Sterling Silver Track Shoe to the high point man and one for the second place man.

Rules

University Interscholastic Rules on eligibility must be observed. League track rules will be followed as far as possible. Final decision will be left to the referee. In regard to the two additional relays (440 yard relay and the 880 yard relay) a man may enter six events counting these relays; otherwise, a man may enter five events as given in the league rules. The two additional relays will count the same as the mile relay in scoring.

To The Coach:

Each man that enters the javelin throw must have a javelin, and it should be marked. In this event every man will throw, and then measurement will be taken.

If you have a stop watch we would like to use it.

"Little Minister" Coming To Cameron Theatre Feb. 24

Heralded as a challenge to all the star's previous successes, and one of the big events of the motion picture year is the screen version of Sir James Barrie's hauntingly beautiful romance, "The Little Minister," which serves Katharine Hepburn as her new vehicle.

The picture will be shown at Cameron Theatre on Sunday and Monday February 24 and 25.

For this picture RKO-Radio recreated the quaint charm of Thrums in Scotland, and around it director Richard Wallace has staged a romance with all the qualities of whimsical delicacy which Barrie expressed.

The settings, which show the village of Thrums, while realistic and picturesque, are said to be quite different from those used in former productions of the story, more nearly authentic, and much more pretentious.

Katharine Hepburn re-creates in her inimitable mood the character of Babbie made famous on the stage by Maude Adams. Amid the wild and untamed Scottish moors the alfie Babbie leads her persecutors and her love a merry chase.

Richard Wallace, who directed the making of the Barrie classic, has made his romance around the Auld Licht Kirk one of strange and haunting charm. John Beal, from the Broadway stage, is said to play the role of the "Little Minister" with a splendid touch. That favorite troupe

the New Pontiac STANDARD SIX

An Additional line of cars whose quality and beauty make the price phenomenal

Today Pontiac presents the Standard Six line—even lower in price and offering many of the features that the 1935 De Luxe Six and Improved Eight introduced with such sensational success. All models have the speedlined styling that gained Pontiac the name of the most beautiful thing on wheels. The bodies are solid steel "Turret-Top" Bodies by Fisher. The brakes are big hydraulics, triple-sealed against dirt and moisture. The new ride resulting from stabilized, synchronized springing, is every bit as comfortable as you could ask for. The engine, with its silver-alloy bearings, provides dependable performance so smooth and lively that you will doubt it is a six. And, best of all, its economy will literally amaze anyone who has had experience with other low-priced cars! A look, a ride and you'll decide you simply can't do better.

NOW FOR THE BIG RACE.
OWNS TWO BIG STADIUMS.

BAER AND THE FIELD.
MRS. MOODY'S PLANS.

Legalized wagering on horse racing, now a accomplished fact in 15 States, brought into the treasuries of these commonwealths something more than \$5,800,000 during 1934. It is estimated that something like \$20,000,000 changed hands last year as opinions of merits of horse flesh proved sound or foolish. Maryland topped the list with revenue of \$863,940. Rhode Island, with a "take" of \$812,000 was second and five other States drew down more than a half million as their share of letting people bet on the ponies.

Opening games in the major leagues will take place on April 16th when the base ball fans will see them start off like this: National League, New York at Boston, Brooklyn at Philadelphia, Pittsburgh at Cincinnati and St. Louis at Chicago. In the American circuit the cry of "play ball" will see them to the following start: Cleveland at St. Louis, Chicago at Detroit, Philadelphia at Washington and New York at Boston.

Incidentally, another professor of chance, Jack Doyle, of New York, last week quoted the following odds against the various teams in both leagues:

American League			
	1st	2nd	3rd
Detroit	8-5	2-5	1-5
New York	2 1-2-1	3-5	1-4
Boston	4-1	6-5	1-2
Cleveland	4-1	6-5	1-2
Washington	20-1	8-1	3-1
Philadelphia	30-1	10-1	5-1
St. Louis	100-1	50-1	10-1
Chicago	1000-1	400-1	200-1

National League			
	1st	2nd	3rd
St. Louis	7-5	2-5	1-5
New York	2 1-2-1	7-10	1-4
Chicago	3-1	4-5	1-4
Pittsburgh	5-1	7-5	1-2
Brooklyn	30-1	10-1	4-1
Boston	50-1	20-1	8-1

The \$100,000 Santa Anna Handicap will come off this week end and Cavalcade, future book favorite, after responding to treatment for an injured foot, is expected to be at the post. The other horses, including the sentimental favorite, Equipose, are also expected to be in condition for the great race. It will be watched by thousands and the outcome anxiously awaited by racing fans all over the nation.

James Norris, Sr., of Chicago, who made a fortune in wheat, is set to become one of the greatest sports operators in this land of the brave. He owns the Olympia arena in Detroit, which cost \$5,000,000, and expects to have possession of the Chicago Stadium, which cost \$6,500,000. He will promote all kinds of events, including boxing under the direction of two veterans, Jim Mullen and Nate Lewis. Incidentally, the Chicago Stadium holds the world's record for indoor boxing attendance, 23,822 to see the Jack Dempsey-King Levinzky four round bout in 1932.

News from old England is that C. E. Fairley, who owns and races the Shamrock V, Sir Tom Lipton's last cup challenger, is ready to issue a challenge for the America's cup in 1936. Fairley, who saw the races last year, is satisfied and that Sopwith lost and thinks he knows why. Therefore he is forming a racing crew that will assure its members being able to handle the challenger in this country with the advantage of two years of training. Fairley, like Sopwith, is an airplane manufacturer.

The New York athletic commission flip-flopped recently and decided, after all, that Max Baer, world's heavyweight champion, could engage in bouts of six to ten rounds to a decision, without risking his title. Championship fights were set at 15 rounds. Provision is made for non-championship fights at fewer rounds provided the champion defends his title at least once in every six months. How this can be done when the crop of challengers is insufficient to entice a promoter to put on the show is not clear or explained. As champion Max surveys the scene for prospective opponents it

is said that he considers Primo Carnera the outstanding challenger. Maybe Max liked their last meeting, which was pretty good for Max, or thought that the big Italian might be the best gate attraction. Anyway, one might also list some others, including Steve Hamas, Max Schmeling, Art Lasky and maybe a few others not so well known at this time. That's enough to start a series of shows that would show what they have to offer.

News from San Francisco is that Mrs. Helen Wills Moody will soon begin practice for the tennis comeback that the world of sport is waiting for. The former queen of the courts, who defaulted to Miss Helen Jacobs two years ago, and thereby lost her crown, believes that her back injury has improved sufficiently to warrant her following the

game again. Her future plans are not positive, depending upon the progress that she makes in overcoming the handicap.

Dizzy Dean finally signed a Cardinal contract and says that he is satisfied. The figure is supposed to be secret but Dizzy makes no pretense of believing that any other club has a chance . . . Babe Ruth, said to be getting concerned about his status this year, is expected in New York this week from Europe. His "manager or quit" talk has not improved the standing with Yankee club officials . . . Charles Gelbert, Cardinal shortstop whose baseball days seemed over when he accidentally shot himself in the leg two years ago, will try to get his job back this spring . . . Earl Combs, Yankee outfielder, who crashed into a concrete fence last summer at Saint Louis,

suffering a fractured skull, has a conditional contract just like the rookies. He got \$15,500 a few years ago, but now he must show that he can do his part in the other garden . . . Jack Dempsey, it seems, is eligible for the job of referee in New York, refused to take routine assignments and now may win out if asked by promoters to referee a special bout . . . The International League begins to play on April 17 and ends its season September 8th, with the same play-off series that was set up last year . . . Tilden, Vines, Lott and Stoeffen, the big four tennis professionals, say the U. S. tennis team will not even reach the challenge round in Davis cup play this year.

Come see why Our Best Salesmen are the Users of the NEW "G-3"

The G-3 Is Better
Than We Say It Is!

Yes sir—people who got the new G-3 All-Weather before it was advertised and have driven this marvelous tire many thousands of miles, are singing its praises louder than our advertising does! Particularly do they insist that the new G-3 gives better than the "43% more non-skid mileage" we advertise! Which is an unusual situation, we admit—but not so surprising because: actually the new G-3 is the greatest tire that was ever built. All we ask is, before you buy tires give us a chance to show you why G-3 users boost it even stronger than we do!

Astonishing New G-3 GOODYEAR ALL-WEATHER

Look!—at No Extra Cost: 43% More Miles of real non-skid safety . . . Flatter Wider Tread . . . More Center Traction (16% more non-skid blocks) . . . Heavier Tougher Tread (average of 2 lbs. more rubber) . . . Supertwist Cord Body (supports heavier tread safely).

16,226 miles since September—practically no wear.—Ala.

Over 22,000 miles still plenty of traction.—Iowa

Diamond blocks not worn out at 20,000 miles.—Ky.

Approximately 32,000 miles—still some traction left.—W. Va.

Usually wear out tires in 15,000 miles. No appreciable wear on front G-3's, little on rear, after 12,879 miles.—Georgia

Big Value—Low Price! GOODYEAR SPEEDWAY

Built with Supertwist Cord Center traction; tough thick tread; full oversize.

ESCAPE PUNCTURES FROM PINCHING RIMS!

Goodyear puts against the rim side a thicker tougher rubber in this famous DOUBLE SERVICE tube. Costs little more—saves a lot of trouble. Ask to see it.

MAURITZ-BALDWIN CORPORATION STOCK COMPLETE

FARM IMPLEMENTS OF EVERY KIND IN STORE TO OPEN ON MARCH 1

The prosperity of the community is dependent upon the richness of the soil.

A high-producing rich soil farmed by thrifty folks maintains a thriving business center.

In order to get the most from a rich soil the farmer needs farm implements, and better these implements help him raise a crop at a profit to himself the more progressive the farmer becomes.

Therefore welcome is given the new implement and hardware business—Mauritz-Baldwin Corporation to Cameron, as this firm caters exclusively to the farm trade. On display are implements used for the cultivation of a 1-acre water melon patch to the 1000 acre plantation.

In the tillage line are walking plows and middle busters, peg and spring tooth harrows, disk harrows, cultivators and planters. These machines come in walking, riding and tractor models, that are used by every type of farmer in Milam county. Indeed, one may trace the progress of farming from the time every farmer walked behind his plow up to the present when mules have given place to tractor power.

There is on display the McCormick-Deering line of hay tools, in-

cluding the new mowing machine running in a bath of oil, self dump hay rakes, hay press. Among the corn machines is the intricate corn binder that runs down a row of corn, cuts it, levels the stalks, then ties the bundle and kicks it off in one operation; corn sheller and feed grinders.

For the dairyman and cattleman of special interest is the manure spreader that spreads manure evenly over twice the area possible by hand; hammer mill that will grind dry feed, stalk and all, so that cattle will eat the entire amount, making a saving of nearly 40 per cent; cream separators with stainless steel disks that skim every bit of the butter fat from milk; wagons and farm gears; milking machine, etc.

On display, too, will be the complete line of International trucks up to three ton size. The new long wheel base half ton pick-up truck is especially interesting with its longer bed.

For this special occasion Mauritz-Baldwin Corporation is arranging to have on display a replica of McCormicks original reaper—the first harvesting machinery to be put in successful use. The reaper was first used in 1831, and the replica on display is therefore of historical inter-

A Fine Stand

General Hugh S. Johnson earned a reputation for a lot of talking while he was head of the NRA. Very often the loquacious General talked too much but everybody recognized that he had a picturesque method of expression.

Recently General Johnson was asked if he was going to accept a large job with some business concern. While he admitted that he had been offered some jobs, General Johnson said that all wanted "to rest on NRA publicity and some idea of the pull in Washington." The General revealed his character when he said that such offers "give me a faint nausea."

1776 A British Lesson

Stanley Baldwin, British official, says that Great Britain has learned the lesson taught her in 1776 by the American colonies, and that by teaching dependencies to govern themselves we "preserve their loyalty and insure their cooperation and their unity with us."

Mr. Baldwin says the way to keep an empire young and vigorous and preserve it from decay is to fertilize it with self-government, and that empires of the past perished because they did not discover the secret.

Advertising Cameron

There are citizens in Cameron who dismiss all talk of town boosting as a form of bunk. They profess to believe that nobody means anything when praising his own home town and insist that its growth will come along as a matter of course.

In this attitude they are mistaken. This is a day of advertising what you have to offer. The biggest factor in business is correct advertising. If you don't think that it will help a community you ought to see what California and Florida and the way stations have accomplished through publicity.

This does not mean, however, that every community must go after tourists, or even after industries. There are other ways to make a city great. Mere size is not the criterion of progress. To build up an excellent community spirit, to attract to a town decent citizens and to spread among the inhabitants of Cameron a friendlier feeling is worth while, even if no great material growth follows.

A "Scoop" Without Credit

From the News-Week, weekly chronicler of events, comes the story of a "scoop," dear to the heart of newspaper men everywhere.

Two men were to be executed in Richmond, Va. "Just 1 hour and 50 minutes before the condemned pair went to their deaths, the 6 A. M. edition of Hearst's Washington Herald ran a grisly tale of the execution." "Minute details told how a condemned Negro prisoner sang spirituals while the two walked their last mile, how one of the execution jury 'who asked that his name be withheld' reacted to the macabre sight."

Naturally critics of Brother Hearst's journalism pointed with glee to the "astounding performances." Such disclosures do nothing to enhance the prestige of American newspapers although undoubtedly such stunts are pulled in other offices.

However, the reader of a newspaper who gets such a fake is entitled to complain. More than this, somebody ought to pass a law to protect everybody from such frauds and, while at it, there ought to be provided some punishment for the perpetrator of so-called personal stories by people who never write them.

Newspapers like the Herald would suffer irreparable damage if found guilty of such trickery. As a class the so-called small town press can show the metropolitan screamers a lot of honesty and truthfulness.

About "Baby Bonds"

It won't be long now before the citizens of Milam County will have the opportunity to buy the much publicized "baby bonds," which the Federal government plans to put on sale around the first of March.

The President it is said will buy No. 1 and it is hoped that the people will take kindly to the offering. The bonds will be sold on a discount basis and a bond that will mature at \$25 on a certain date will be sold for less than the sum, the difference being the interest it will earn during its lifetime.

The idea seems to be largely physiological. That people will be able to invest huge sums seems improbable but that every buyer of a "baby bond" will take more interest in the affairs of the government. Moreover, holders of these securities are not apt to be advocates of wild spending on the part of the government.

Silver Proves a Puzzle

The Herald has repeatedly confessed its ignorance upon subjects relating to money, the gold standard, etc., etc. However, we have been intrigued with the argument of those who recently advocated action about silver.

Now we have another problem. As we remember it, the idea was that our buying of silver, putting up its price, was to have enhanced the buying power of nations using that metal for currency and thus help them buy our goods.

We have observed dispatches from China telling of the evil effect our silver policy has had, there have been diplomatic discussion about it and a heavy drain of silver from China has almost cut in half the Chinese supply of the metal, with interest rates going as high as 32 per cent. Obviously, there is a kink in reasoning somewhere.

At this time Japan is exerting tremendous pressure upon the Chinese government, seeking vast concessions politically and, we suppose, commercially. The silver situation, according to some observers, is tending to force the Chinese to give serious consideration to Japanese demands and may soon force the Chinese into accepting the domination of Japan.

The Junior League's Stand

One of the cheapest forms of social activity that we have come across has been the endorsement for compensation, of various products by so-called leaders of society. For a set price, manufacturers of almost anything have been able to get individuals to sign enthusiastic boosts for whatever it was that had the money they wanted to get.

For this reason we want to commend the League, which ends this habit so far as the action of the executive committee board of the Junior League is concerned and prohibits any member from using the Junior League name in the endorsement of a commercial made product or service.

We have been puzzled somewhat over the type of morons who would be influenced to use various products because money-grabbing individual, for cash, sold his or her endorsement of the thing. Anybody with any sense knows that these endorsements are for sale, just like oats or hay, and therefore, as a rule, insincere, untruthful and a fraud on the unsuspecting sap that is willing to believe them.

Here's An Example

Mr. Clinton L. Bardo is president of the National Manufacturers Association and the New Jersey Taxpayers' League. As expected, one finds him recorded, very often, as vigorously opposed to "government interference with business" and for reduction in the expense of the government.

Mr. Bardo, however, does not give all his time to these ideas. He was, one time, president of the New York Shipbuilding Company and was not averse using political pressure to retain business for his company or to government expenditures that meant business for his company. Among other things it is charged that, with other large shipbuilding companies, his own business corporation had an agreement to divide the government business. The idea, of course, was to eliminate competitive bidding and the result, as charged, is that prices of warships went up to almost double their former figure. Moreover, when it was feared that a small shipbuilder might enter into competition Mr. Bardo forged about his "government out of business" and urged Gov. Moore, of New Jersey, to write the President protesting against any government loan to the competitor.

As the Philadelphia Record well

says, "The set-up shows how Government expenditures may be increased by the practices of Big Business, which is the loudest champion of Government 'economy.'"

"And it shows, too, how it may be perfectly all right, in the eyes of the Big Business, to use politics to interfere in the normal course of trade and competition."

Newspapers Get Advertising Dollars

Advertising is a big business. In 1934 something like \$350,000,000 was used for this purpose, with newspapers getting the largest share.

The Bureau of Advertising of the American Newspaper Publishers Association reports that national advertisers spent \$349,500,000 in 1934, with newspapers getting 46.7 per cent, magazines 32.5 per cent, chain broadcasts 12.2 per cent and outdoor 7.7 per cent.

These figures apply to national advertisers. In regards to local advertising the percentage in favor of newspapers is much higher.

Let's Look Ahead

The progressive town will consider the needs of its children. The progressive village will take care of this situation before it grows, and acquire sufficient land for park and playground purposes.

Cameron is not as big as it will be. Its needs along this line are not as great as they will be. Land will never be cheaper. The time to buy is at hand.

We hope our responsible officials will carry this thought in their minds. Let's make Cameron an ideal city in the future by undertaking its broad development along the right ideas. Acquire park sites and playgrounds now even if we have to postpone their development until some future period.

BAPTIST CHURCH HAPPENINGS

The Choir gave a fine party on last Friday evening. It was well planned and capped off with delicious refreshments.

The Study Course in the Sunday School during this week has brought upwards of 64 people to the classes. All classes studied the book "When Do Teachers Teach?" Classes were taught by Mr. Duckworth and the pastor.

Interest is being accorded the District Sunday School and BTU Convention which convenes in Taylor on next Tuesday. This District comprises some 9 Associations and 14 counties.

The pastor will begin a series of sermons for Sunday evening on the Next Sabbath Day at 7:30 o'clock on the general theme of "Perils of the Modern Home." The first will consider the "Automobile." Come and bring your friends.

CONTRACT BRIDGE

Mrs. Vernon McIntyre was hostess to the Wednesday and Friday contract bridge clubs last week, at the home of her sister, Mrs. Rush A. Thomas. A pretty Valentine motif was noted in decorations and in table accessories. Other than club members were Mrs. Ed. Taylor, Mrs. Geo. Graves, Miss Aetna Smith and Mrs. Rush Thomas for Wednesday games and Mrs. R. D. Brown, Mrs. Alex. Triggs, Mrs. W. A. Bonds and Mrs. S. Kesterbaum for Friday Club.

The hostess served a salad course each afternoon.

CHRISTIAN MISSIONARY SOCIETY

The women of the Christian Missionary Society met Monday afternoon with Mrs. Bob Young, who led the lesson, assisted by Mrs. Guy Slocomb and Mrs. Jim Adams. A playlet was given by Mesdames Ray Burke, W. G. Harsha and W. B. Denson. Concluding the program the hostess served pie a la mode with hot coffee.

METHODIST W. M. S.

Monday afternoon members of the Woman's Missionary Society of the Methodist church were privileged to hear Mrs. J. Coy Williams lecture on "Can We Teach Christian Living?" This was the second in a course of lectures to be given by Mrs. Williams on Parent Education.

The W. M. S. will meet next Monday afternoon at 3 o'clock in the following homes: Circle 1 with Mrs. Lena Baskin; circle 2 with Mrs. W. A. Bonds; circle 3 with Mrs. R. H. McIntosh; circle 4 with Mrs. A. J. Triggs.

John Young of Archer City is here on a visit with his mother, Mrs. Dalie Young.

H. C. McKee who was operated on at the Cameron Hospital two weeks ago, underwent another operation Monday afternoon. He is reported to be resting well.

CLARENCE P. DODGE
BURIED IN HOUSTON

Clarence Porter Dodge, 41, who died in Los Angeles, California, last week, was a nephew of Judge Jeff T. Kemp of Cameron.

The body was returned to Houston for burial and on Tuesday Judge and Mrs. Kemp attended. Mr. Dodge was born in Cameron. His mother before her marriage was Miss Ada Kemp. She married C. P. Dodge in Cameron. Both are now deceased.

Mr. Dodge was assistant sales manager for Texas Company in Los Angeles. He is survived by his widow, one son, Clarence Porter Dodge, one daughter, Miss Christine Dodge of Los Angeles; three brothers, H. W. Dodge, New York; D. Kemp Dodge, Houston, and Harry T. Dodge of Tulsa, Okla., and one sister, Mrs. Kemp Dean of Houston.

CHILD IMPROVES

Agnes Marie Paseman, 5, was reported resting some better Thursday at the home of her grandmother, Mrs. Mary Heintze in Cameron. Agnes Marie has been suffering from typhoid fever. Many interested friends will be glad to know she is better. Her father and mother recently died in Cameron and she went to make her home with her Grandmother Heintze who is giving her every care and attention.

Frank Heintze, Sr. and son, Frank, Jr., are sick at their home in the city but are recovering.

Mrs. Webb Todd of Cameron spent a few days last week with her father, Charles Butts of Maysfield. Mr. Butts has been on the sick list, but is reported improved.

THIEVES

Jesse Brock, agent for the Magnolia, reports that his warehouse on the Santa Fe was entered on Friday night. A small adding machine and a flashlight was stolen.

CARD OF THANKS

We wish to express our sincere thanks to our neighbors and friends who were so kind during the illness and death of our dear husband and father. We also thank Dr. C. F. Everett and friends for the many beautiful floral offerings.

Mrs. John Babovec
and children.

Herry Hlavacek who lives in the Marak community on Route 3 out of Cameron, was a welcome visitor in the offices of the Herald last week. He has been a reader for many years and likes the Herald. He reads extensively and talks with great intelligence upon many subjects. He believes that some form of social justice will soon evolve from the economic abuses to which the common people have been subjected.

DRYS ACTIVE

An address by Oliver Stewart on the "Coming War With the Liquor Traffic," will be delivered in First Methodist church Monday night, March 18. It will be a community meeting.

FRIENDSHIP CLASS

The Friendship Class of the First Baptist Church met Monday night for their monthly business meeting with their teacher, Mrs. Cecil Culpepper presiding. Miss Gussie Rowlett and Ray Duckworth instructed the class as to its duties. After business the class enjoyed a social hour. There were 15 members and three guests present.

Lady Says She Took
CARDUI for Cramps;
Was Soon Relieved

Women who suffer as she did will be interested in the experience of Mrs. Maude Crafton, of Belleville, Ill., who writes: "For several years, I suffered from irregular trouble and cramping. There would be days when I would have to stay in bed. I would get so nervous, I was miserable. My aunt told me to try Cardui. She believed it would build me up, regulate me and help the nervous trouble. I knew after taking half a bottle of Cardui that I was better. I kept on taking Cardui and found it was doing me a world of good. I am in good health, which means a lot to me." Thousands of women testify Cardui benefited them. If it does not benefit YOU, consult a physician. . . . Price \$1.

Mr. Porobsky is an old time resident of this section and will find many things of interest in the Herald this year and the publishers appreciate his reader support.

Miss Annie Hampil of Ad Hall was in Cameron Saturday and will be a reader of the Herald in 1935. Miss Hampil appreciates the space allotted to news from the home demonstration clubs and news from Ad Hall. The publishers are glad to welcome her to the reader list of the Herald in 1935 and appreciate her reader support. She will receive her first copy this week.

E. J. Hosch, a former resident here and now living in Fontonio, California, will read the Herald in 1935. It is being sent to him by his brother, Frank Hosch. He will get a great deal of satisfaction from reading the paper and knowing the things of interest about his community and friends.

W. M. Senkel of Ben Arnold, for many years a resident of this county, is a new reader of the Herald, having visited the offices of the publisher last week end to enroll in the reader increase club. He receives his mail on route 1 out of Ben Arnold. Mr. Senkel is a native of Germany. He has lived for almost 20 years on one farm at Ben Arnold and for more than 50 years has been a resident of Texas. He is the father of John Senkel, garage owner in Cameron.

Erle Burke, popular employe of the government as carrier on city route 1 out of the local postoffice, is one of the many new Herald readers this week. Mr. Burke has selected the Herald for 1935 and the publishers appreciate his reader interest. He finds time to spare from his government position to search out and explore Indian villages and has a large collection of flint work at his home here.

M. T. Ford, brother of Will Ford of Cameron, will read the Herald in 1935, a gift of his aunt, Miss Mollie Allen who instructed the publishers to mail the Herald for one year. Mr. Ford is a former resident here and will read with interest the happenings of Cameron and Milam county where many old friends live. Mr. Ford lives at Lexington.

Ernest Kunchik on route 2 out of Cameron has selected the Herald to read in 1935. He was in the city last Thursday on business and took advantage of his visit to become a member of the 500 reader club. He is a farmer in the Walker's Creek community and will find many interesting things in the Herald in 1935.

Cecil Morgan from Marlow is now a reader of the Herald, having received his first copy last week. Mr. Morgan is one among many who have enrolled in the reader increase campaign. He is a young farmer of that section and receives his mail on route 4 out of the city. The Publishers welcome him to their great family of Herald readers.

W. M. Stocklas who owns and farms the old R. L. Batte home place a short distance west of the city on the Yarrellton road is a new reader of the Herald. Mr. Stocklas was a visitor to the city on last Thursday and enrolled in the reader increase club. The Stocklas farm is one of the old settlements in the county and is still a profitable living place for Mr. Stocklas.

The Parent Teachers Association met Thursday, February 14, and gave a program honoring the founding of the Association thirty eight years ago. A pledge was given by the Dramatic Club under the direction of Miss Love. Miss Jenkins had charge of a candle ceremony. Mrs. Hoover and Mrs. Law represented former and present presidents in the ceremony. Several students from Ada Henderson helped in performing the service. After the program, a short business meeting was held and it was decided that the Association would handle the ceremonies at the Interscholastic League meet in March. This will be a means of obtaining funds for the treasury. They were adjourned until the next meeting in March.

BANQUET

The Methodist Church gave a banquet Friday night at 10 o'clock in the basement with all the young folks of that church as their guests.

Hilliard Thomas was master of ceremony.

The Ladies Missionary Society was in charge of the program.

Solo — Billy Triggs
Cornet Duet — Frank Newton
Piano Solo — Catherine Monroe

During the program, the guests enjoyed the following plate: Pressed chicken, English peas with creamed carrots, candied potatoes, pickles, hot rolls, cherry pie with whipped cream, fruit salad and coffee.

Those who attended wish to express their thanks to the ladies for the program and plate served to them.

ASSISTANT LEAVING

Miss Helen Swift, for some time an assistant to Mrs. Jergens in the office, will leave for Dallas next week where she will attend Draughton's Business College.

INTERSCHOLASTIC LEAGUE WORK

Interscholastic League work has been slowed up this week due to so much rain and the absence of several of the faculty members. However, interest is still high and everyone is looking forward to the excellent showing that is believed that Yoe High and Ada Henderson will make

when the contest meet is held in Cameron March 15 and 16.

FACULTY MEMBERS BACK

Miss Love and Mr. Wood who have been out of school due to illness have both returned and have taken over their class work.

TYPING STUDENTS VISIT CALVERT

Miss Green took several of her outstanding typewriting students to Calvert Thursday afternoon in order that they might have an imitation typewriting contest. Contest work tends to make students nervous if they have not had some experience in writing under strain such as is brought about writing before audiences and competitive work. This preliminary practice contest will help the student to eliminate errors caused through nervousness and to adjust themselves to conditions of noise and disturbances.

The students taking part in the contest were: Catherine Mode, Alice Rylander, Inez Smith, Katherine Woodum, Margaret Lesikar, Rudolph Michalka, Harold Jackson and Nadine Walschak.

RETURN DEBATE COURTESY

The debating team of Yoe High School has been taking part in a series of practice debates with surrounding schools. Week before last the debaters went to Calvert and last week to Bryan. The debating team of Calvert High School returned the courtesy by visiting Yoe High School and giving further practice to both teams. The Yoe High debaters feel that such practice is very beneficial to them and should be a great help in the Interscholastic League contest.

CHAPEL PROGRAM

Baylor University was represented in a debate Wednesday, February 20, when the debating team of the University appeared before the faculty and students of Yoe High. Everyone enjoyed the excellent arguments given by both sides of the discussion.

NEW GYMNASIUM AND VOCATIONAL BUILDING POSSIBILITY

Rumors have been going around with increasing frequency that the Cameron schools will have a new unit for the better carrying on their activities. This unit, if constructed, will be a modern equipped gymna-

sium that will accommodate the physical educational classes for both boys and girls. It will also include a complete Home Economics Department, thus relieving the crowded situation of Yoe High school. An auditorium with a seating capacity of 600 if the floor is in use and 1500 if only the stage is used will be included also.

Several committees have appeared before City Council in regard to this project and even though nothing has been definitely decided everyone seems very pleased and encouraged over the prospects for getting the new building.

GIRLS' BASEBALL

Girls' playground ball under the direction of Miss Skelton is well under way. Two teams, 11 each, have been chosen. The captains are Viola Thomas and Myrtle Stidham. Out of these 22, nine of the best will be chosen for the final team.

Billy B. Bryan, Bobby Batte, Janette McIntyre, Ruth Dinkens and Norma Jean McElwraith took part in the P. T. A. program last Thursday.

P. T. A.

The P. T. A. met at Yoe High school Thursday afternoon February 14, 1935 at 3:30. The Dramatic Club of Yoe High, under the direction of Miss Love, gave a play "The Gift." A group of boys and girls under the leadership of Misses Jenkins and Clement gave a candle lighting ceremony in commemoration of the Founders Day. The following took part in it. Mrs. Law, Mrs. Hoover, Miss Jenkins, Bobby Batte, Billy Batte Bryan, Norma Jean McElwraith, Ruth Dinkens and Jeanette McIntyre. Miss Sproull's sixth grade won the prize.

APPLE PIE HILL

"Apple Pie Hill" is a very interesting book by Helen Forbes. Cornelia Barnell and Dank Aldrich learn from their grandmother that there is hidden silver in Apple Pie Hill, the home of Barnell. They had just moved out of Apple Pie Hill and were quite disgusted that they knew nothing of the silver before.

Dank gets in the Barnell house by being hired as a maid to Mrs. Jenkins who is living there new.

With the help of Ruffy Tufty, Mrs. Jenkins' parrot, the silver is

found in a hole in the wall by Dank. She is very anxious to get home that night, but can not leave until her work is done.

When Dank gets home she and Cornelia shine the silver and later the Barnells move back to Apple Pie Hill.

I like the book because it is such an interesting mystery story.

—Charlotte Perkins.

MIDGET AND BRIDGET

By Bertha and Elemer Hader

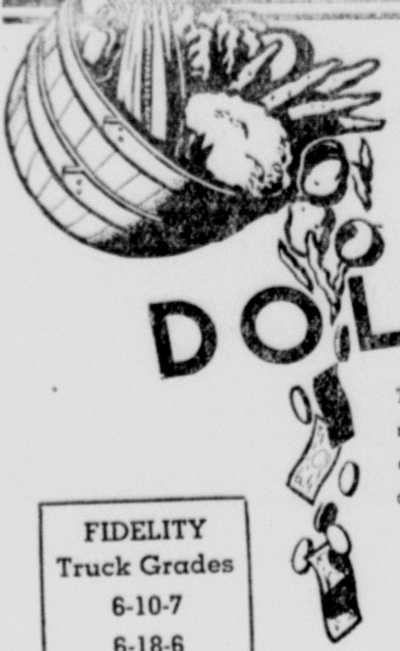

Midget and Bridget are two little burros. Their mother was killed by a mountain lion while protecting her children. Black Solomon was the leader of the herd, but he was also the two little burros' father. One day the herd was captured. A Mexican pottery man took one. Both Midget

and Bridget have many hardships. In the last part of the book they find comfort in Mary Jane's house, where they find each other. I like the book because one of the most interesting persons is a little girl whose name is the same as mine.

—Mary Jane Brock.

BOY SCOUTS

The Boy Scouts are planning to have a court of honor the first of March. Many boys in the sixth grade will receive tenderfoot badges. In the seventh grade Grady Stidham, Jr. will receive a second class badge, Sam Tyson a tenderfoot and second class badge. We all hope that Stone Garner will pass his second class tests, and we think he will. Clifford Guess will receive his tenderfoot badge.

"Back of Every Sign of Progress is the Assurance of Dependable Electric Service"

The Industrial Growth of Texas

Parallels the Far-Flung Network of Central Station Power Facilities

TWENTY-TWO years ago the first electric power transmission line was built in Texas . . . by the Texas Power & Light Company, pioneering and laying the foundation for that type of electric service in this state. It was this pioneer effort and the extension of such facilities which followed that opened the door for Texas to realize a great benefit from the changing structure of American industry. As a result, forward-looking communities wielding the potent weapon of dependable and adequate power supply have won a wide variety of new wealth-producing industrial plants.

Literally hundreds of industries, dating their founding since 1912, now dot the industrial map of Texas. The close relation between their choice of location and the availability of dependable electric power is evident when the industrial map is compared with that showing the continually expanding facilities of central station power supplied through transmission lines.

Almost point for point and mile for mile, industrial growth has paralleled the extension of dependable power service.

These twenty-two years have seen the development of Texas as a textile manufacturing center; the movement for dairy products manufacturing come into being and flower into the thriving plants now active

at many points; refineries, flour mills, clay products plants, cotton gins, oil mills, garment factories and many others built to add wealth and glory to industrial Texas. By far the greatest number of these new industries . . . virtually all those of important size . . . have, most significantly, located where they may avail themselves of an adequate supply of dependable and economical electric power, assured by transmission lines.

Always the Texas Power & Light Company has looked toward the requirements of the future. Thus an adequate and dependable power supply has been available, supplying industries, stores, homes and farms with the best type of service at reasonable rates.

This Company offers the assistance of its engineers to any community served by the Company in presenting its advantages to prospective new businesses and industries.

PUBLIC LAND WITHDRAWN.

AT PRE-WAR PRICE LEVELS

PROCESSING PAYMENTS

TO ENFORCE CROP CONTROL

CATTLE HERDS CULLED

Complete withdrawal of all public land from settlement, location, sale or entry has been effected by a recent Presidential order, pending determination of a nation-wide conservation program.

The public domain includes 165,695,000 acres of which about half will be permanent livestock grazing areas. Land not suited to profitable crops will become forests, grazing districts, game preserves and bird refuges.

It is doubtful if any of the sub-marginal land will be farmed as this would render useless the present

program of buying up such lands. By July it is expected that about 7,000,000 acres of this type of land will have been acquired.

Price levels of fourteen basic agricultural commodities have about reached the pre-war parity, says Louis H. Bean, economic adviser of the AAA, who attributed this to the drought and adjustment payments.

He points out, however, that increased domestic demand is necessary if these prices are to be maintained this year when larger crops are anticipated. The price of the 14 commodities was only 552 per cent of the pre-war level in February, 1933, but advanced to 106 per cent by January 15, 1935 and with adjustment payments added, 125 per cent.

The commodities include wheat, cotton, field corn, hogs, tobacco, su-

gar, peanuts, rye, flax, barley, grain sorghum, cattle, rice and milk and its products. Processing taxes are levied on the first seven named.

This does not mean, it should be understood, that farm income is up to pre-war levels. The short crops of 1934 are not to be compared with those of pre-war days.

Farmers might get as much as half a billion dollars from the government this year in processing taxes, according to figures prepared by government economists.

Since May 2, 1933, when the program began, more than 10,000,000 checks amounting to \$629,614,037 have been distributed by the AAA. For 1935 Secretary Wallace makes the following estimate of the benefit payments for five commodities:

Wheat—\$102,000,000.

Cotton—\$94,230,000.

Corn-Hog—\$165,000,000.

Sugar—\$47,000,000.

Peanuts—\$4,000,000.

Incidentally, while the government was paying the farmers the \$629,000,000 under the various crop control plans the taxes levied and collected aggregated \$640,871,403.

Processed amendments to the Agricultural Adjustment Act would give the Secretary of Agriculture power to limit the marketing of basic commodities in excess of quotas and allotments prescribed whenever two-thirds of the producers by number or quantity of production agreed that such action was necessary.

While such authority exists at present it has not been evoked unless 80 per cent of the producers favored the agreement and then did not apply to non-cooperating signers. The new agreements would bind minority producers.

Another provision looks forward to the "ever normal granary" plan by permitting the AAA to make benefit payments in kind as well as in cash and gives authority to use the processing taxes to buy up cotton and corn now stored under seal as collateral for government loans.

The "culling" of cattle by herds by government purchases in the drought area has placed the industry in an extremely favorable position although still a long ways from becoming prosperous.

When the books closed on government buying it was found that 8,156,322 animals had been bought at an average price of \$13.50 a head. The removal of these animals, most of them of the poorer type, brought down the inventory to approximately 57,000,000, or about the same as 1900, 1912 and 1928.

Millions of trees will be planted this spring in the Great Plains shelter belt project. According to Federal officials the government will plant 4,000,000 trees in six States, North Dakota, South Dakota, Nebraska, Kansas, Oklahoma and Texas.

In addition, it is reported, Minnesota is working on its own shelter belt program and farmers in Wisconsin plan a five year schedule, calling for setting out 10,000,000 trees.

The "liquid test"

... it ENDS bowel worries for many people

This is a test that tells you whether the system needs a cathartic change. If you have constant sluggish spells or bilious attacks, and laxatives seem to make things worse, it would be wise to try this:

Stop all use of any laxative that does not encourage variation from a "fixed dose" (which may be entirely too large a dose for your individual need). Use instead, a liquid laxative that you can measure and regulate as to dose. As necessary to repeat, take smaller doses, less and less often, until the bowels are moving without any help at all.

Doctors use liquid laxatives, and a properly prepared liquid laxative, containing natural laxative agents like senna and cascara is a joy and a comfort; a real help in establishing regularity. Ask your doctor about this! (Doctors use liquid laxatives.) You can get Dr. Caldwell's Syrup Pepsin, which is a most dependable liquid laxative, at any drug store.

COMPLETE TUNNEL

West Portal, Colo.—The Twin Lakes tunnel, under the Rockies, connecting the east and west tunnels, has been completed. The huge bore begun November 2, 1933, pierces 20,234 feet of solid rock and will divert water from the Roaring Ford River to 56,000 acres of lower Arkansas Valley land.

THE ACCURATE, TWO-ROW RIDING PLANTER

JOHN DEERE NO. 210—FOR COTTON, CORN AND PEANUTS

Here's the riding cotton and corn planter that was designed especially to reduce planting costs for Texas farmers. Its accuracy and its adapt-

ability to all methods of cotton planting have made it a big favorite.

The John Deere Saw-Tooth Type Steel Picker Wheel picks out the cotton seed one at a time, or more if desired, in any quantity per acre. It picks out the lint and trash with the seed—no clogging in the hopper. Corn, sorghum, peanuts, and other crops are planted accurately by the use of John Deere Natural Drop Seed Plates.

Tongue truck relieves horses of neck weight and makes machine run steadily. Shovel openers and covers have reversible points. Runner openers can be furnished in place of shovels if desired. Fertilizer attachment and press wheels can also be furnished.

AGA approved
gas appliances...

ASSURANCE

for SAFETY QUALITY EFFICIENCY

Few industries maintain a laboratory for research and testing such as the American Gas Association Testing Laboratory. In this laboratory every kind of gas appliance is tested by trained engineers. For instance, a gas range is subjected to about 250 separate tests. These tests are grouped under such headings as: lighters, leakage, burner operating characteristics, combustion, fire hazard, thermostats, oven heat distribution and capacity, and many classifications pertaining to construction and strength. In every detail, a gas appliance, before A. G. A. approval is given, is made to comply with nationally indorsed standards for safe operation, durable construction and satisfactory performance. When buying gas appliances look for this seal.

FALSEHOOD; HYPOCRISY

International Sunday School Lesson for March 3, 1935.

GOLDEN TEXT: "Wherefore, putting away falsehood, speak ye truth each one with his neighbor: For we are members one of another." Eph. 4:25.

(Lesson Text: Acts 5:1-6; 8:18-24)

Our lesson today takes up several incidents in the history of the early church. For both of the two principal occurrences in this lesson have come words used in everyday language to typify the characteristics represented. An "annanias" is recognized as one who lies; "simony" describes the purchase of ecclesiastical offices with money. Both are based upon incidents of our week's lesson.

Some of the members of the early church, among them Barnabas of Cyprus, sold their possessions and turned the money over to relieve the needs of those in distress. "The community of goods was not compulsory," says Thomas M. Lindsay, "it was permitted and encouraged because it sprang voluntarily from love to one's neighbor. This is the true glory of all Christian service; it is pure thanksgiving—enthusiasm for Christ when it becomes forced is dangerous and deadly." Ananias and his wife, Sapphira wanted to get the credit of doing the same thing. They sold some property but only turned in a part of the value, pretending that it was all.

"Thou hast not lied unto men but unto God," said Peter. "That was a terrible salutation for a man to be met with who had just sold a possession and laid such a large part of the price at the apostle's feet," says Alexander Whyte. "But Peter knew all Satan's processes. Peter knew by experience what he was speaking about. Do you know the premonition, the sensation, the smell, so to say, when Satan approaches you to fill your heart? And what do you say to him?"

"The sin commonly ascribed to Ananias and his wife is falsehood," says Herbert Luckock, "but when the whole story, together with the probable motives of the transgression, is unfolded, it is found to involve a combination of numerous offenses. We can read in it at least four: vanity, hypocrisy, lying, and deliberate defiance of God." Following Peter's denunciation Ananias died. Three hours later his wife repeated his performance and likewise died.

Some may wonder at the harshness of the penalty these two paid. Dr. Campbell Morgan says: "The Church must be a holy Church, a flame, a fire, and a scorching; so that while the wandering may come back, they knew in their coming that the garments spotted by the flesh must be burned as they enter; that the unholy traffic must be left at the door; that no man or woman can hope to come into the fellowship of the Christian Church, whose hands are stained with unholy business; that no man or woman can hope to find refuge in the church unless their lives are true and pure and consecrated to the highest of all ideals. Why is it that the outside world does not fear in the presence of the Church? Why is it that parliaments and kings and emperors are not afraid of the Church? Because the Church has allowed to come within her borders the unclean thing; because she is not pure."

The new faith made rapid strides in Jerusalem. Miracles were performed. The rulers of the Jews were aroused by the growth of the new faith, finally arresting and bringing Peter and John before them. "Behold ye have filled Jerusalem with your teaching," complained the high priest. Some of the Sanhedrin wished to kill the apostles but Gamaliel spoke for moderation, so they were bidden and commanded not to talk any more about Jesus. "We must obey God rather than men," replied Peter, and the work of evangelism continued.

"Had Gamaliel been an ignorant and an unlearned man there might have been some excuse for him," says Alexander Whyte. "But Gamaliel had not that cloak at any rate for his sin. We all make Gamaliel's tremendous and irreparable mistake when we approach Jesus Christ and his cause and His kingdom on the side of policy, and when we handle Him as a matter to open to argument and debate. He is an ambassador of reconciliation. We are simply not permitted to sit in judgment on Almighty God, and on His message of mercy to us."

The care of the poor and needy became more burdensome. Seven deacons were appointed to administer this relief, of whom Stephen, the first martyr, and Phillip were two. Stephen was stoned to death and a terrific persecution of the new church launched with Saul (subsequently the Apostle Paul) one of the arch leaders. The Christians scattered and Philip went to Samaria where he performed a great service.

The people of the day were much given to magic and sorcery. One of the outstanding magicians was Simon, who was apparently converted and astonished at the miraculous power which followed the descent of the Holy Spirit upon the Christians. He came to Peter seeking to buy this power but the great apostle repudiated him saying, "thy silver perish with thee." Peter denounced this attitude of seeking to purchase spiritual power and blessings.

"Simon's whole attitude is that of a professional wizard convinced that strangers have at command magical powers of wonderful strength," says Thomas M. Lindsay. "He fancied that he could by money be instructed how to acquire, use and impart, all in the way of trade, these powers. To the end he got no nearer the truth, for his prayer is to avert such power from burning him. The sin of Simon is virtually repeated when a man gets himself appointed to office in the church, not that he may do God's work, but that he may make a living or gratify ambition; when he seeks a reputation for piety that he may secure his own temporal advantage when for the sake of fame he covets the power of converting others, while careless of his own spiritual state."

THE STATE OF TEXAS

TO THE SHERIFF OR ANY CONSTABLE OF MILAM COUNTY—GREETING:

You are hereby commanded to summon Mrs. Maggie Pavelka and husband Frank Pavelka, Mrs. Helen Pavelka and husband, Chas. Pavelka, Mrs. Wager Hosch, also known as "Gladys Hosch," and husband, Edwin Hosch, by making publication of this citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your county to appear at the next regular term of the District Court of Milam County, to be holden at the court house thereof in Cameron, on the 4th day of March, 1935, the same being the first Monday in March, 1935, then and there to answer a petition filed in said court on the 6th day of February, 1935, in a suit numbered on the docket of said court, No. 11187, wherein J. K. Freeman and Miss Adele Schmidt are plaintiffs, and Mrs. W. R. Charnecky, or Chernosky, Joe Charnecky, or Chernosky, Frank Charnecky, or Chernosky, Steve Charnecky, or Chernosky, Mrs. Pearl Parubsky and husband, Charles Parubsky; Mrs. Annie Tomek and husband, Frank Tomek; Mrs. Willes Malavets and husband, Frank Malavets, Mrs. Frances Harker and husband, John Harker, Mrs. Mary Rice and husband—Rice, Mrs. Maggie Pavelka and husband, Frank Pavelka, Mrs. Helen Pavelka and husband, Charles Pavelka, Mrs. Wager Hosch, also known as "Gladys Hosch," and husband, Edwin Hosch, are defendants, said petition alleging that plaintiffs are owners by fee simple title and as tenants in common of that certain tract of land lying and being situated in Milam county, Texas, being 195 1-2 acres, a part of the L. F. Margaret survey, described as follows: BEGINNING in the South line of said survey in the center of Walker's Creek; THENCE North 71 West 620 varas from the Southeast corner of said survey for the Southeast corner of this survey; THENCE North 71 West 1615 vrs to the Southwest corner of this survey in the East line of the S. Louisa's Letter

SHOULD A MARRIED WOMAN SEEK A JOB?

Dear Girls:

So many letters come from women who are undecided about mixing marriage with career.

Personally I don't think they mix very well. The career or the family is bound to be neglected unless the wife is a magician.

Now, when I advise not mixing a job with matrimony, I do so where the question is one of choice; when it is not necessary for a woman with a family to work outside her home.

There are cases when an added income is necessary and under such circumstances a woman can do more for her family by doing such work than she can by staying at home.

For instance I know a woman who was an expert stenographer before she married a man who was making the same salary she was drawing. She gave up her job and that meant that they both had half as much to spend on clothes, food, doctor bills, dentists and recreation as they had before.

However, neither of them regretted doing this as they felt that the

One Thousand Dollars per year.

Plaintiff prays for citation and on final hearing for judgment for title and possession of said land and stock, writ of possession and Two Thousand Dollars rents, for general relief, etc.

HEREIN FAIL NOT, but have before said court on the first day of the next term hereof, with your return thereon, showing how you have executed the same.

WITNESS, PENN WOLF, Clerk of the District Court, Milam County, Texas.

Given under my hand and seal of said court in Cameron, this 6th day of February, 1935.

PENN WOLF, Clerk, District Court, Milam County, Texas.

happiness of having a home and being together made up for any material comforts they were being deprived of.

But then a baby girl was born and six years after giving up her job this young mother found herself with three small children. The depression had come in the meantime and the husband's salary, instead of increasing, was a little less than it had been at the time of their marriage. It was simply inadequate for their needs. They had to move to a very poor neighborhood and the children did without fresh fruit and other things they really should have had. A part time maid was out of the question and this young woman, who had always been accustomed to nice things, found herself occupied from morning until night with so much routine house work that she had little time to give to her children's mental and spiritual needs. She was irritable and anything but a pleasant companion for the husband that came home at the end of the day.

One day her old boss asked her to work during the regular stenographer's vacation. She got her mother to stay with the children and attend to them, with the help of a hired girl. When the regular stenographer got married she jumped at the chance of getting her old job again.

Today they have moved back among their friends, the children have nice clothes and regular medical and dental care. The wife and husband can afford to step out once or twice a week, and although these children are robbed of the society of their mother, I think they have gained more by her taking the old job than if she had stayed at home to scrub the floors and pots and pans.

However, if it had been a question of getting a finer car than the neat coach, or hiring several maids instead of one, I should have said

"Stay at home and take care of your children and husband. No one can really take a mother's place and there is much to do there if you will only realize it."

Remember the saying "As the twig is bent, so the tree's inclined."

Yours,

LOUISA.

THE HERALD

'LITTLE MINISTER'

(Continued from Page 1)
of tenderness and spirit which even she has never before revealed.

Sir James Barrie is a keen, penetrating, tho whimsical, writer. He knows the feminine soul and his Babbie is the eternal Eve that he painted her—and Miss Hepburn is the ideal actress to portray his heroine most vividly.

The spectator instantly responds to her native set of intrigue which she weaves around the serious-minded Gavin and mischievously delights in watching him endeavor to break this romantic yoke.

Everyone's sympathy glows at the attempts of the simple village weavers to break their industrial bondage. And when Babbie takes Gavin to the hilltop and persuades him to blow his horn, warning the countryside of the approach of soldiers, one finds the incident not only highly dramatic, but appealing.

Compact with human touches, this RKO-Radio is embroidered with countless details of Babbie's charm, and the whole story is played against a background charged with life in the quaint and colorful Scottish town of Thrum.

Katharine Hepburn makes Babbie a delightful study of piquant and persuasive arts. John Beal plays the role of the "Little Minister" with fine authority and lends the part of a quaint pathos. Alan Hale is properly featured as Rob Dow, the village ruffian. The sensitive hand of the director Richard Wallace was all that was needed to give the picture the final touch it needed, and to weld together the performance of the star and the large and splendid supporting cast.

man, property owner and tax payer, being associated with his brother in the Horstmann Brothers Tire Store and automobile agency, here. He has been active in community life supporting and serving in many official ways the Chamber of Commerce. For a long period Mr. Horstmann has been an active member of the volunteer fire department.

He believes in progressive policies for the city with proper safeguards for the interests of the citizens and tax payers and if elected would bring to the council the benefit of his business experience to aid the government in solving its problems. It would be his policy as an alderman to give time and thought to all the affairs of the city and to make the government function for all the people with due regard for the interests of every citizen.

Mr. Horstmann is a young man, is active and well qualified for the place he seeks. He has never before offered for public office, choosing rather to be numbered among the rank and file of citizens who lend their co-operation and pay taxes. Mr. Horstmann sincerely appreciates the many who have asked him to offer for the position of Alderman and gives his pledge in advance that he will pay back in faithful service in full measure to compensate the people for the honor and trust of the position.

has chosen Cameron and Milam county because of the agricultural wealth, and stable farm prosperity of our community. While most of us have felt the effects of the past depression, we know that Milam county is among the richest in the state, and the percentage of farm owners is very great.

Few men in the county are as familiar with farm tools and the needs of Milam County farmers as Mr. Cone, and they will be glad to see him back.

lington, Father Tim Valenta of Bryan, Father Apel of Cameron, District Deputy Borchers of Austin, as well as several visiting Grand Knights.

Music was furnished by Parma's orchestra. Several selections were also rendered by the harmonica orchestra of troop 52 Boy Scouts of America, sponsored by the Cameron Council.

B. P. Matocha was master of ceremonies at the banquet, held in the local hall of the American Legion.

FORMAL OPENING

(Continued from Page 1)
itors will be served dinner in the building that day. Mr. Baldwin plans to receive visitors at night believing that many will find it more convenient to come in the evening.

Of special interest to students will be the replica of the first reaper by McCormick invented and used in 1831. This reaper was shown in Cameron several years ago and excited much interest. All displays and exhibits will be made inside the building with its great space. In the event of cool weather it will be made comfortable. Plans are being made to accommodate hundreds of visitors for the day and Mr. Baldwin extends a cordial invitation to all.

An advantage of the agency is the display of implements. Farmers may see the actual implement they buy and know what they are getting. In addition the Mauritz-Baldwin Corporation is a Cameron Store, owned and operated by local citizens and becomes at once a shareholder in the progress and prosperity of the community.

Report Made On Funds From All Birthday Parties

Final tabulations from the several Roosevelt birthday entertainments in the County show that a total of \$213.14 was received, according to Mrs. J. P. Love, president of the child welfare board of the county.

There will be retained in Milam county \$149.20 for local work and \$63.94 has been sent to the national commission.

A number of children are on the waiting list in Milam county due to lack of funds for the work. Twelve children have been placed in hospitals by Mrs. Love whose work has been outstanding. She thanks the local physicians who have so freely given their time and advice.

Appliances, braces and hospital costs take up all funds raised for the crippled children.

CORINTH 4-H CLUB

The Corinth 4-H Club met at the home of Miss Lorene Kuzel, and the program was on Setting out Shrubs. We set out some shrubs and then cut out slips. Most of our girls have their aprons finished and will be ready to start on our slips. Our next meeting will be with Miss Ludy Bolf and the program will be about Finishing touches, and held at the home of Mrs. H. A. Kuzel.

Feels a Lot Better When Black-Draught Relieves Constipation

From many states come reports like the following from Mr. W. M. Henderson, of Jasper, Fla.: "I have been taking Theodor's Black-Draught twenty years. I take it for constipation that gives me a dull, tired, aching feeling, and I have headache, too. Black-Draught relieves me of this trouble. After a few doses, I feel as good as new. I keep it in my home. I have a big family. When one of us is ailing (from constipation), we take Black-Draught and almost always feel a lot better. It has been worth its weight in gold to my family." Sold in 25¢ packages. "Children like the Syrup."

MILANO

On Friday February 15 Milano Consolidated school met at the school building for the purpose of selecting representatives for the County Meet in March at Cameron. Much interest was shown by the large number of parents and friends who attended this meeting. It is the aim of the school to make this an annual affair.

HAS A BILLION

The RFC has about one billion dollars at its disposal for business during the year, \$400,000,000 in cash and expected repayments of \$600,000,000.

CANADA COOPERATES

Cooperative action by Canada has practically eliminated the Dominion as a source of supply for bootleggers in this country, and efforts will be made to secure similar action by Great Britain and France. In this connection Canada and the U. S. operate the first joint border patrol in history. Agents of both countries are in the same plane, and arrests are made on either side of the line.

51 CENTS ON THE DOLLAR

For every dollar that the government spends there is collected only 51 cents in taxes. The deficit since last July is above the two billion mark, and \$76,000,000 more than last year.

UNDERGROUND PARKING

To overcome congestion, underground parking facilities will be provided for the employees of the Department of Interior between 18th and 20th Streets. Accommodations are planned for 800 automobiles.

TELESCOPE FINISHED BY 1940

Pasadena, Calif.—If all goes well, the 200-inch telescope of the California Institute of Technology may be completed by 1940, according to Dr. John A. Anderson.
